

Data Standards and Access Committee

(Note: New, created February 2006)

E-mail address: STANDARDS@SELCO.info

The Data Standards and Access Committee will meet periodically and be responsible for:

- Recommending standards for the creation and use of borrower and bibliographic records including indexing and display
- Recommending procedures for ensuring borrower and bibliographic database integrity
- Assisting with the development and continual enhancement of a user friendly online web catalog
- Assisting with creation of appropriate documentation for library staff

The Executive Director will create a standing Data Standards and Access Committee at the request of the ILS Operations Committee. The Data Standards and Access Committee will be representative of the constituency being served by SELCO. The Data Standards and Access Committee will have a standing roster with term limits. The committee members will have cataloging, reference and/or public service expertise.
