

ILS Bulletin 2008-8 : Web Reporter report enhancements.
July 1, 2008

Bulletin Summary:

Enhancements are being made to some of the reports available in Web Reporter. These enhancements have come from requests made in the past by SELCO Online libraries. These enhancements are currently being worked on, and by nature of the Web Reporter product, they are visible to anyone using Web Reporter. Work on these enhancements is scheduled to finish by July 15.

Please contact the Help Desk if you have comments or questions.

Full Bulletin:

Enhancements are being made to some of the reports available in Web Reporter. These enhancements have come from requests made in the past by SELCO libraries. These enhancements are currently being worked on, and by nature of the Web Reporter product, they are visible to anyone using Web Reporter. Work on these enhancements is scheduled to finish by July 15.

Any reports that are being worked on will have (TESTING) designated in the title of the report. This signifies that the report has been changed, but may not be in its final form. Once the testing work is complete, the report title will change to (UPDATED). This will signify that the enhancement has been finalized. Once all enhancements associated with this project have been completed, (UPDATED) will be removed from the titles of these reports.

The following is a brief description of all the enhancements planned:

1. Add ability to break down **CKI/CKO/IHU Report** by collection code
2. **New Borrower Count** broken down by btype
3. **New Borrower Count** broken down by city/county
4. **New Borrower Count** broken down by state
5. Add videos, CDs and other A/V materials to **Titles with Best Circ** report
6. Remove Iowa Patrons from the **Bad CI/CO** report
7. Add columns for created date, last CKO date, item status, status date, barcode and copy to the **Titles with Best Circ** report
8. Limit for items added since a given date in the **Titles with Best Circ** report
9. Collection code added to **Titles with Best Circ** Report
10. Include last CKO date in **Statcat Item List**.
11. **Expired Holds** report should have both the location that owns the item and the pick-up location of the item included on the list. The barcode of the item could be substituted for the owning location.
12. Add copyright date to the **Weeding Report**
