

## ILS Bulletin 2008-6 : New Collection Codes for High Definition and Blu-ray DVDs

March 25, 2008

### Full Bulletin:

SELCO staff are creating a number of new collection codes to provide proper identification of both High Definition and Blu-ray DVDs that are waiting to be added to our Online Libraries' collections. In order to facilitate cataloging and adding these items, these codes are being added to the collection immediately.

Please restart your Horizon sessions at the end of business day, March 25, to see all new codes. The list below is included for your information, and the pdf to make it more convenient to share with your staff.

Please contact the Help Desk if you have any questions or comments.

dvdh	DVD - High Definition	High Definition DVD
