Integrated 275 Watt Power Supply
Gateway E-4620 Drivers & Applications DVD
Gateway System Manager Client v. 3.2

Gateway 17" Black LCD Flat-Panel Display

At just 14.97" wide, 15.26" high and 6.55" deep, the FPD1765 occupies up to 60% less desk space than a conventional CRT display. Plus, it's VESA compliant for easy wall-mounting.** With a wide variety of accessories available, such as the Ergotron Neoflex LCD Stand, you can easily adjust the screen to the exact height and angle you choose. Raise or lower your LCD 5 inches (130 mm), pivot it to either side, tilt it up or down - or even rotate the screen to switch between portrait and landscape viewing. And with an optional upgrade to a 3-year limited warranty, your LCD display will be going strong for years to come.

Gateway E265M Laptop

[Genuine](#) Windows Vista® Business
